

INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, AUGUST 28, 2003 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5

CURRENT SITUATION:

Initial attack activity was light in all Areas. Nationally, 156 new fires were reported. Three new large fires were reported, two in the Southern California Area and one in the Northern Rockies Area. Six large fires were contained, three in the Northwest Area, two in the Southern California Area and one in the Northern Rockies Area. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Idaho, Kansas, Montana, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Washington and Wyoming.

The U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by LTC Gregory Schultz, at Fort Hood, TX is assigned to the Fish Creek Complex in western Montana.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage Blackfoot Lake Complex, Ball Creek, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, Rampage Complex, High and Little Salmon Creek Complex. An Area Command Team (Rounsaville) is assigned to manage Lincoln Complex, Winslow, East Complex, Rough Draw Complex, Cathedral Peak Complex, Rathbone and Burnt Ridge/Sheep Camp Complex. An Area Command Team (Ribar) is assigned to manage Cherry Creek Complex, Mineral-Primm/Boles Meadow, Fish Creek Complex, Black Mountain 2, Cooney Ridge and Gold 1. An Area Command Team (Greenhoe) is assigned to manage Sapp, Slim's Complex, Fiddle, Beaver Lake, Cayuse Lake Complex, and Clear/Nez Fire Use Complex.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This incident, comprised of the Beta Lake, Doris Mountain, Lost Johnny, Ball Creek, Wounded Buck, Doe, Dead Buck, and Blackfoot Lake fires, is in timber 19 miles east of Kalispell, MT. Torching and uphill runs due to high winds were observed on the Lost Johnny, Beta and portions of several other fires. The Ball Creek fire burned to the east.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is in sub-alpine fir with down fuels, 20 miles east of Eureka, MT. Interior torching, crowning and rapid fire growth were observed. Structure protection is in place for 80 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Ferguson) is assigned. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. Fire behavior was moderate; smoldering with occasional flare-ups was observed. The Harrison and Belton fires were staffed.

CRAZY HORSE, Flathead National Forest. A transfer of command from Vail's Type 1 Incident Management Team to Chrisman's Type 2 Incident Management Team will occur today. This fire is in mixed conifer with heavy dead and down fuels, ten miles northeast of Saint Ignatius, MT. Continued slow surface spread with isolated torching was observed.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Ferguson) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. Smoldering with occasional flare-ups was observed. Significant runs occurred northeast of Huckleberry Mountain late yesterday. Divisions on the south and west portions of the fire remain in mop-up, hold and patrol status. National Guard troops were assigned to aid in mop-up and patrol. Structure protection is in place for 100 residences and six commercial properties.

RAMPAGE COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Ferguson) is assigned. This incident, comprised of the Double Mountain, Riverview No. 1, Riverview No. 2 and Rampage, is in timber 15 miles southeast of West Glacier, MT. Smoldering with occasional flare-ups and short runs was observed. The Double Mountain fire made a significant run late yesterday, moving primarily east into Glacier National Park and away from residences along Highway 2. The fires are in patrol and monitor status. Structure protection is in place for 30 residences.

TRAPPER CREEK COMPLEX, Glacier National Park. A transfer of command from Ferguson's Type 1 Incident Management Team to Cable's Type 1 Incident Management Team will occur today for management of the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Paul) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Creeping and smoldering surface fire with individual tree and group torching were observed. Aerial monitoring continued today. Glacier National Park roads and facilities near the Trapper Creek and Wolf Gun Fires remain open. Structure protection is in place for three commercial properties.

HIGH, Flathead National Forest. A Type 2 Incident Management Team (Weldon) is assigned. This fire is in timber, 23 miles northeast of Seeley Lake, MT. Fire behavior was minimal with a small amount of smoke observed on the perimeter. Light precipitation fell on the fire.

LINCOLN COMPLEX, Helena National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This complex is comprised of the Moose-Wasson and Snow-Talon fires, ten miles west of Lincoln, MT. The Moose-Wasson fire is contained. The Snow-Talon fire had no increase in perimeter due to rainfall. Structure protection is in place for 150 residences and 20 commercial properties.

EAST COMPLEX, Yellowstone National Park. A Type 2 Incident Management Team (Gardner) is assigned. This incident, comprised of the East and Grizzly fires, is ten miles east of Fishing Bridge Junction, WY. Isolated torching with creeping fire was observed. Some large fuel burn out is still occurring. A trace of precipitation fell over the fire area yesterday. Structure protection is in place for 31 residences and 42 commercial properties.

WINSLOW, Central Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management Team (Kearney) is assigned. This fire is in timber, five miles southwest of Lakeview, MT. The fire received rain yesterday morning, limiting fire behavior to smoldering and creeping. The voluntary evacuation of Lakeview remains in place. Structure protection is in place for 30 residences and one commercial property.

CATHEDRAL PEAK COMPLEX, Custer National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This incident, comprised of the Cathedral Peak, Oliver and Salderbalm fires, is in timber 10 miles south of Nye, MT. Despite high winds, higher humidity levels and cloud cover moderated fire behavior. Firefighters constructed direct line along the lower eastern flank and burned out a short section of indirect fireline. Structure protection is in place for 50 residences and one commercial property.

BURNT RIDGE SHEEP CAMP COMPLEX, Lewis and Clark National Forest. A Type 2 Incident Management Team (Hendricks) is assigned. This complex, comprised of the Burnt Ridge, Ant Park, Sheep Camp and Pioneer Ridge fires, is four miles northwest of Neihart, MT. Fire behavior moderated due to high humidity levels and rain showers. Surface burning with occasional torching was observed. The Burnt Ridge fire was controlled yesterday.

ROUGH DRAW COMPLEX, Gallatin National Forest. A Type 1 Incident Management Team (Oltrogge) is assigned. This complex, five miles southeast of Livingston, MT is comprised of the Rough Draw, Slippery Rock, Speculator 1, Speculator 2, Elbow, Brundage, Walbrun and Hawley fires. Fire behavior moderated due to rain showers. Creeping and smoldering were observed.

RATHBONE, Gallatin National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is in timber, 17 miles north of West Yellowstone, MT. Fire behavior moderated due to cooler weather and higher humidity levels. Southbound Highway 191 was reopened yesterday; northbound Highway 191 remains closed. Acreage increase is due to more accurate mapping. Structure protection is in place for one residence.

FISH CREEK COMPLEX, Lolo National Forest. A Type 1 Incident Management Team (Stam) is assigned. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. This incident is comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, 24 miles west of Missoula, MT. Light precipitation increased fuel moistures and slowed fire behavior briefly. Strong winds caused flare-ups and a return to more active fire behavior late in the afternoon. Mop-up continued on the Thompson Fire. Five Batteries of the U.S. Armies Task Force Steel Dragon were deployed to assist the firefighting efforts on several divisions. Structure protection is in place for 195 residences and one commercial property.

BLACK MOUNTAIN 2, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 1 Incident Management Team (Gelobter) is assigned. This fire is in mixed conifer, understory and grass, nine miles west of Missoula, MT. Fire behavior was reduced to creeping with some single tree torching due to rain showers. Structure protection is in place for 650 residences.

CHERRY CREEK COMPLEX, Lolo National Forest. A transfer of command from Swope's Type 2 Incident Management Team to a Type 3 organization will occur today. This incident, comprised of the Cherry Creek and Tepee Creek fires, is in lodgepole pine with heavy ground fuels, 12 miles southeast of Thompson Falls, MT. Minimal fire activity was observed. The Tepee Creek fire is contained; the Cherry Creek fire is 80 percent contained. Structure protection is in place for 180 residences.

MINERAL-PRIMM, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 1 Incident Management Team (Bennett) is assigned. This incident, comprised of the Mineral-Primm, Stuart Peak and Boles Meadows fires, is in timber 19 miles northeast of Missoula, MT. Fire behavior was moderated by light rain. Firefighters worked to contain the slopovers on all fires.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management team (Sandman) is assigned. This fire is in timber eleven miles east of Florence, MT. Smoldering, creeping and single tree torching were observed. Rain fell on the fire area yesterday morning. Structure protection is in place for 100 residences.

GOLD 1, Bitterroot National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Fire activity diminished due to rain and increased humidity levels. Smoldering and creeping were observed. Firefighters constructed direct line into the Signal Creek drainage.

SLIM'S COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This complex is comprised of the Slim's, Stillman and Poet fires, 35 miles east of Grangeville, ID. Fire activity was minimal with isolated smoldering and creeping on all fires. Firefighters constructed firelines along the northern and southern flanks of the Poet fire.

SAPP, Nez Perce National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This incident, comprised of the Sapp and Richardson fires, is in timber and grass 22 miles south/southeast of Elk City, ID. Isolated smoldering was observed on the north flank of the Sapp fire and the northwest and southwest flank of the Richardson fire. Structure protection remains in place at Allison, Yellow Pine, White Water, Mallard and Cook Ranches. Structure protection is in place for 22 residences and one commercial property.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 1 Incident Management Team (Frye) is assigned. This incident, comprised of the Beaver Lake, Siah Lake, Moose Lake, Lily Lakes, Bears Oil, North Howard and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. The Cayuse Lake, Cayuse, Eagle Creek, Eagle Creek East, Fish and Queen Creek fires will be added to this complex today. Light rain and increased humidity levels throughout the day resulted in subdued fire behavior early. Windy conditions resulted in a moderate increase in fire behavior after midday. Surface fire and isolated torching were observed throughout the Complex. The Initial Attack Branch completed all containment work on the Bears Oil Fire. Structure protection is in place for 61 residences and 51 commercial properties.

FIDDLE, Nez Perce National Forest. A Type 2 Incident Management Team (Rios) is assigned. This fire is in timber, six miles northeast of Riggins, ID. No visible fire activity was observed. The fire will be turned back to the Nez Perce National Forest on 8/29.

CAYUSE LAKE COMPLEX, Clearwater National Forest. A Fire Use Management Team (Cones) is assigned. This incident, comprised of 44 fires, is in timber 41 miles southwest of Lolo, MT. Smoldering was observed in large fuels with little spread. All fires in this complex are suppression fires managed under a confinement strategy. This Complex will become a part of the Beaver Lake Complex today.

MOLLMAN, Flathead Agency, Bureau of Indian Affairs. This fire is in timber, five miles southeast of Ronan, MT. No new information was received.

UNION, Yellowstone National Park. This fire is in timber, 35 miles east of Ashton, ID. Fire behavior was minimal with smoldering and creeping.

GOLD CHEST. Idaho Panhandle National Forest. This fire is in timber and grass, two miles southeast of Murray, ID. Smoldering was observed. Structure protection is in place for 35 residences and 5 commercial properties.

FRANK'S CREEK, Dakota Prairie National Grasslands. This fire is in timber and grass, seven miles north of Medora, ND. Fire behavior included running, torching and crowning.

NORTHWEST AREA LARGE FIRES:

B&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This complex, comprised of the Booth and Bear Butte fires, is 14 miles west of Sisters, OR. The fires are in timber with heavy ground fuels. Both fires are spreading to the west and are very active with torching, spotting and short crown runs. Structure protection is in place for 1,000 residences and 12 commercial properties. State Highway 20 remains closed for through traffic.

LIGHTNING COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This complex is comprised of the Grouse Creek, Haas Ridge, Butcherknife and Two Corral fires, 31 miles east of Joseph, OR. The Two Corral fire is in monitor status. The Haas and Butcherknife fires have had minimal fire activity and growth.

SQUARE LAKE FIRE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Furlong) is assigned. This fire is in continuous old growth forest, heavy brush and downed fuels, 20 miles west of Leavenworth, WA. Creeping and smoldering with isolated torching were observed. A trail closure for upper Icicle Creek drainage is in effect.

GLACIER PEAK COMPLEX, Mt. Baker-Snoqualmie National Forest. This complex, comprised of the Mineral, Found Lake, Emerald Lake and 12 other un-staffed fires, is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. The Found Lake fire was contained. Overall the complex experienced moderate fire behavior due to lower temperatures and higher humidity levels.

ROCKY MOUNTAIN AREA LARGE FIRES:

BLACKWATER COMPLEX, Shoshone National Forest. A Type 2 Incident Management Team (Wendt) is assigned. This complex, comprised of the Blackwater and Norris fires, is 30 miles west of Cody, WY. The Norris fire is in monitor status. The Blackwater fire had minimal growth with surface burning and isolated torching. Structure protection is in place for ten residences and two commercial properties.

BOULDER BASIN 2, Shoshone National Forest. A transfer of command from Hill's Type 2 Incident Management Team to a Type 3 organization will occur today. This fire is in grass, sagebrush and timber, 25 miles southwest of Cody, WY. Minimal fire activity with creeping and smoldering was observed due to higher humidity levels and cloud cover. Increase in acreage is due to more accurate mapping. Structure protection is in place for 25 residences and 20 commercial properties.

SAWTOOTH, Routt National Forest. This fire is in blow-down and bug-killed spruce, 20 miles northeast of Steamboat Springs, CO. No new information was reported.

NORTH BIGHORN COMPLEX, Bighorn National Forest. This complex, comprised of the Little Horn 2 and Riley Point fires, is 35 miles northwest of Sheridan, WY. No new information was reported. This will be the last report unless new information is received.

EASTERN GREAT BASIN AREA LARGE FIRES:

NORTH FORK LICK, Payette National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This incident, comprised of the Marble and North Fork Lick fires, is in sub-alpine fir with dead and down fuels, 18 miles northeast of McCall, ID. Fire activity diminished slightly due to additional moisture received. The North Fork Lick fire is in monitor status; containment efforts are focused on the Marble fire. Structure protection is in place for 123 residences and two commercial properties.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Clark) is assigned. The complex is comprised of the Cougar, Marble, Prospect, Mahoney, Teapot, Falconberry and Trapper fires, 25 miles northwest of Challis, ID. Light rain was received across the area which reduced fire behavior. The complex is in monitor status.

LOST PACKER COMPLEX, Salmon-Challis National Forest. This complex, comprised of the Waugh, Upper West Horse, Little Horse and Horse fires, is 36 miles northwest of Salmon, ID. No new information was reported.

OUTLOOK:

Weather Discussion: A westerly flow covers much of the west with a small disturbance moving inland along the California/Oregon border. A cold front will be dropping down out of Canada and will usher much cooler air into Montana. Monsoon moisture remains over the Southwest.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
NORTHERN ROCKIES AREA Partly cloudy. Partly sunny east of the divide including North Dakota with isolated showers and thunderstorms.	West of the Divide: 70 to 90 East of the Divide: 60 to 85	20 to 30% North Dakota: 30 to 40%	West of the Divide: West to northwest 5 to 15 mph East of the Divide: North to northwest 10 to 20 mph
NORTHWEST AREA Mostly sunny, but over southern Oregon skies becoming partly cloudy with a chance of late afternoon wet thunderstorms.	West of Cascades in the 80s inland and 65 to 75 coast. East of Cascades 85 to 95.	West of Cascades 25 to 40%, but 55% on the coast. East of Cascades 10 to 25%.	Light and variable winds becoming north to northwest 5 to 15 mph by afternoon.
ROCKY MOUNTAIN AREA Becoming partly cloudy with isolated to scattered thunderstorms.	80s to lower 90s lower elevations, 70s in the mountains.	13 to 21% Wyoming, western South Dakota, and northwest Colorado, with 20 to 30% elsewhere.	West winds 10 to 20 mph over Wyoming. Variable 8 to 18 mph elsewhere.
EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Mostly sunny with isolated afternoon thunderstorms in the Bridger-Teton. Utah, Arizona Strip: Mostly sunny north, partly cloudy south with widely scattered showers and thunderstorms south and mountains.	Idaho, Bridger-Teton: 64 to 82 mountains, 74 to 92 valleys. Utah and Arizona Strip: 69 to 89 higher elevations, 75 to 90 valleys.	Idaho, Bridger-Teton: 14 to 24% west, 19 to 29% east. Utah, Arizona Strip: 12 to 30% north, 23 to 44% south.	Idaho, Bridger-Teton: Southwest 5 to 15 mph. Utah, Arizona Strip: Southwest 5 to 15 mph in the north, upslope 5 to 15 mph in the south.
SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog coastal areas, otherwise mostly sunny except becoming partly cloudy with isolated showers and thunderstorms over the mountains and deserts south and east of Cajon Pass in the afternoon.	65 to 80 coastal areas. 80 to 95 mountains. 90 to 105 valleys. 90 to 105 upper desert. 95 to 110 low desert.	15 to 30% desert. 15 to 30% mountains. 15 to 30% valleys. 50 to 65% coast.	Southwest to northwest 5 to 15 mph.
NORTHERN CALIFORNIA AREA Partly cloudy in the northern half of the Geographic Area, with a slight chance of light showers or isolated thunderstorms north of about Big Bar- Big Bend- Ravendale. Mostly sunny to the south. Areas of fog and low clouds along the coast.	60s to mid 70s near the coast, mid 70s to upper 80s over higher inland terrain, and 86 to 96 inland valleys.	55% or higher along the coast, 17 to 32% inland, except 12 to 21% east of the Sierra-Cascade crest.	Southeast to southwest 5 to 13 mph, with locally higher p.m. gusts.
SOUTHWEST AREA Partly cloudy. Scattered to numerous thunderstorms.	70s and 80s mountains, upper 80s to near 102 lower elevations.	20 to 40%.	Variable to upslope 5 to 15 mph, except south 10 to 20 mph and gusty eastern New Mexico and west Texas.
